Subject: SharePoint 2010 release date announced

Dear Valued Customer,

As announced on Friday the official release date for Microsoft SharePoint 2010, along with the other Office 2010 applications, is 12th May 2010.

BSG have been working with Microsoft on SharePoint 2010 in evaluating the first pre-release versions as part of the exclusive, invitation only WAVE 14 Partner Evidence Program since last year. Furthermore we have run several sneak peak events for our customers already, with the first one delivered in November 2009, and are already working on several proof of concept projects with customers as a result.

We're delighted that there is now a confirmed date so that we can plan with you on how we are going to make the most out of this new release to deliver real business advantage to your organisation.

If you would like any further information then please do not hesitate to contact me and I will be happy to help.

Yours sincerely,

Andrew
